ROSES

HYBRID TEA, HYBRID PERPETUAL, FLORIBUNDA, and POLYANTHA MOSTLY SOLD OUT

We still have a good many Roses in the above classifications, but the demand is so great that our assortment is broken to the extent that we do not feel that we are justified in offering quantities of specified varieties. We suggest that you order by color and we will give you as good a variety selection in each color as possible.

—IT PAYS TO BUY FROM A RELIABLE NURSERY—

As many of our good customers know—we filled your many orders complete. In many cases we had Southern grown roses sold and after losing our roses in the South, due to the November freeze, we furnished Western Grown roses, roses that could be secured only by paying exorbitant prices.

Let us quote on your rose requirements for Spring 1942. We offer one of the most select variety lists of roses available anywhere. The majority of our roses, for delivery Spring 1942, are Northern California and Oregon grown.
